

Program

08:30-12:30 Saturday, June 18, 2016

08:30 -08:45

Moderator : *Shoujun Li*

Welcome Address: *Shengshou Hu Francois Lacour-Gayet (Oman)*

Session I :Ventriculoarterial connection anomalies

Moderators: *Emile Bacha(USA), Jian Zhuang, Quansheng Xing, Yifeng Yang*

08:45- *Congenitally Corrected Transposition: Should There Always be an Anatomic Repair?*

Glen Van Arsdell (Canada)

09:05- *15 minutes discussion*

09:20- *The strategy for complex transposition: Does anatomic repair have better hemodynamic performance?*

Shengshou Hu

09:40- *15 minutes discussion*

09:55 - *Ongoing controversies of the surgery of conotruncal anomalies*

Francois Lacour-Gayet (Oman)

10:15 -*15 minutes discussion*

10:30- *Break*

10:45 -*Twenty years' experience of anatomical correction of corrected transposition in Melbourne*

Christian Brizard (Australia)

11:05- *15 minutes discussion*

11:20 - *Strategies for late arterial switch - Better late than Never*

Victor Tsang(UK)

11:40- *15 minutes discussion*

11:55 - *ASO on TGA/VSD/LVOTO*

Dong-Man Seo (Korea)

12:15 - *15 minutes discussion*

13:00 -14:00

Luncheon Symposium: Video Session

Moderators: *Guocheng Sun, Qiang Wang*

➤ ***Annulus sparing surgery for TOF with a small annulus***

Glen Van Arsdell (Canada)

➤ **Mitral Replacement with the Melody Valve**

Frank Pigula (USA)

➤ **How to avoid Gothic arch in aortic arch repair**

Dong-Man Seo (Korea)

➤ **Double Root Translocation**

Shengshou Hu

➤ **The Hemi-Mustard/Bidirectional Glenn with Rastelli for cTGA//VSD/LVOTO and positional heart anomalies**

Shoujun Li

14:00 -17:45 ,Saturday, June 18, 2016

Session II :Pediatric valvular disease

Moderators: Glen Van Arsdell (Canada), Yi Luo , Haibo Zhang , Zhongshi Wu

14:00 - The leaking AV valve in single ventricle - Dare to Repair

Victor Tsang(UK)

14:20 - 15 minutes discussion

14:35 -Pediatric aortic valve repair

Christian Brizard (Australia)

14:55- 15 minutes discussion

15:10- Surgical treatment of congenital AS (including Critical AS)

Shunji Sano (Japan)

15:30 - 15 minutes discussion

15:45- Break

16:00- Hybrid Mitral valve implantation in infants

Emile Bacha (USA)

16:20 -15 minutes discussion

16:35 - Complex congenital mitral valve surgery

Frank Pigula (USA)

16:55 - 15 minutes discussion

17:10 -Management of LVOT obstruction in the newborn

Christian Pizarro (USA)

17:30- 15 minutes discussion

08:30-12:30 Sunday, June 19, 2016

Session III: Therapeutic strategies of pulmonary atresia

Moderators: *Christian Brizard (Australia), Nianguo Dong, Huishan Wang, Zewei Zhang,*

08:30- TOF: *Is the era of transannular patch over?*

Emile Bacha (USA)

08:50- *15 minutes discussion*

09:05 - *Pulmonary Atresia – VSD*

Francois Lacour-Gayet (Oman)

09:25- *15 minutes discussion*

09:40- *Strategy of PAA/IVS Treatment: Hybrid approach*

Shengshou Hu

10:00- *15 minutes discussion*

10:15- Break

10:30- *Strategy of PAA/IVS Treatment: Towards biventricular repair: Okayama approach*

Shunji Sano (Japan)

10:50- *10 minutes discussion*

11:00- *Multistage pulmonary artery rehabilitation for PAA /MAPCAS*

Shoujun Li

11:20- *10 minutes discussion*

11:30- *Strategy in the management of PA/VSD*

Dong-Man Seo (Korea)

11:50- *10 minutes discussion*

12:00- *Single stage unifocalization for TOF, Pulmonary Atresia and MAPCAS - Challenges and controversies*

K.S. Murthy (India)

12:20- *10 minutes discussion*

13:00-14:00

Luncheon Symposium:

Moderators: *Hongyu Li , Keming Yang*

➤ *Congenital heart surgery in China: past, present and future*

Shengshou Hu

➤ *Establishing and running a dedicated Pediatric Cardiac Center with limited resources in developing countries*

K.S. Murthy (India)

14:00 -17:45 ,Sunday, June 19, 2016

Session IV: Single ventricle

Moderators: Francois Lacour-Gayet (Oman),Xiaocheng Liu, Xinxin Chen, Xuming Mo

14:00 - Physiologic methods to the Surgical Management of the Single Ventricle

Frank Pigula (USA)

14:20 - 10 minutes discussion

14:30 - Lessons learned from the single ventricle reconstruction trial

Christian Pizarro (USA)

14:50-10 minutes discussion

15:00- Surgical treatment of failing Fontan

Tim AU (Hong Kong)

15:20 - 10 minutes discussion

15:30 -3D Heart Models for Diagnosis and Training: Is it a New Era?

Glen Van Arsdell (Canada)

15:50- 10 minutes discussion

16:00- Break

16:10 - Biventricular repair or Fontan: Can 3D Heart Models be helpful?

Zhongdong Hua

16:30 - Discussion

16:40- Mid- and long-term result of the patients with abnormal apical position and direct connection of hepatic vein and atrium after Fontan procedure.

Jun Yan

17:00- Discussion

17:10- Uncontrolled Antegrade Pulmonary Blood Flow and Delayed Fontan Completion After the Bidirectional Glenn Procedure: Real-World Outcomes in China.

Hao Zhang

17:30- Discussion

17:40- Closing address: Shengshou Hu
